

# US Ecology T e x a s

Robstown, Texas

**US Ecology Texas** offers high volume railcar throughput, state-of-the-art treatment and disposal facilities and an award-winning safety program at our 440-acre site west of Corpus Christi. We treat and dispose a broad range of hazardous and other industrial waste and certain naturally occurring and NRC-exempt radioactive materials.

US Ecology Texas serves a wide range of generators by truck or rail, including those in the refining, petrochemical, agricultural chemical, pharmaceutical, metal processing and environmental service industries.

- 1** new indoor treatment facility for dusty waste streams
- 2** new rail unloading facility provides economical transport for distant customers
- 3** special large debris bag service

## Treatment Services

US Ecology Texas treats both bulk and packaged waste:

- Metal bearing waste stabilization
- Debris encapsulation
- Liquid waste treatment
- Chemical oxidation an alternative to incineration for refinery catalysts, carbon and contaminated soils.

Our new state-of-the-art treatment building specializes in dusty waste treatment.

## Transportation

US Ecology Texas offers a full range of waste transportation services by ship, barge, rail or truck. Our rail transfer station provides high-volume throughput for distant waste cleanup projects.

- New treatment building employs state-of-the-art emission controls and treatment reagent delivery
- Company rail station handles large project volumes
- Container management a specialty
